

# GOOD NEWS

## GOD PROVIDES

Throughout this past year, we've seen God answer prayer in some amazing ways. As Good News Clubs ended last Spring we knew that we were going to need more help when Fall clubs began. Some new clubs were going to begin and several clubs had gotten so big that they were going to need to be divided.

A plea for help was shared during each week of camp and several of our camp teachers volunteered to continue their ministry by teaching or helping in a School Good News Club.

Several people stepped forward as counselors in our clubs including one lady who traveled to seven different clubs throughout the year to counsel the children individually.

A new bus driver was added and two buses were donated. Other drivers drove multiple routes for clubs that had expanded beyond one bus.

Needs still remain and more volunteers will be crucial for next year, but we thank God for His faithfulness through another year of amazing ministry.

## CORA

Cora has been the president of her school's SOC (Serving Our Community) club this past year. She has organized several fund raisers and projects in which the students could participate. Her duties end with field day which the high school students will host for the younger ones. She's planning a jungle theme that should be lots of fun.

## JACOB

Jacob just turned 13 so we now have 3 teenagers in our house. In early June, he'll have his 6th grade graduation and be ready to move into the high school with Cora and Caleb. He has enjoyed the end of the year field trips to the Whitaker Center in Harrisburg, a local alpaca farm, and a showing of Noah at Sight and Sound in Lancaster.

## CALEB

Caleb keeps growing and growing. He'll turn 15 this month, so we're not sure if he's going to get any bigger or not. Meanwhile, we're keeping the stores in business as we buy bigger clothes and shoes. Luckily, we can save all of the outgrown ones for Jacob who has already reached 5'7".

## OLIVIA

Olivia had a wonderful opportunity to be a part of God's love in action. Her Sunday School class worked all afternoon to prepare a meal and then took it to the nearby homeless shelter to share with the residents there. Olivia was helping to make the mac and cheese and exclaimed, "What could be cheddar than this?"
