

GOOD NEWS

IS SPRING HERE?

Last year, I began this paragraph by saying, "Spring is here!" This year, I'm a little hesitant to make that proclamation after the long winter we've had. Hopefully by the time you receive this, Spring will be a reality.

Dan and I will both finish teaching our Good News Clubs this month. We love being able to go to the schools each week and teach our own clubs. This year Dan taught regularly at Mowrey and Hamilton Heights and I was able to teach at Fairview, New Franklin, and Falling Spring. We also get to substitute and visit many other clubs throughout the year. It's so encouraging to see the people God is using and the children that are being reached.

By the middle of the month, we'll be in full-time camp mode. As the weather warms, we'll start to get "camp fever" and will look forward to spending time on the Teeter property making preparations.

CORA

Cora was named a National Merit Scholar finalist last month. This honor opened the door for a full, 5 year scholarship to her college. This is an amazing blessing from God which will allow her to pursue her dreams. At the end of this month, her class is going on a senior trip. Half of the trip will be a time of service and ministry and the other half will be fun activities as a class.

CALEB

Caleb is glad that the temperatures have been getting warmer. He doesn't like wearing a winter coat because he says it feels bulky and is sometimes hard to keep track of all day so he's just been wearing a sweatshirt all winter. It doesn't seem to bother him except for when he's walking home from the bus stop. He's glad that the walk has been much warmer lately.

JACOB

Jacob and Olivia will participate in the Math Olympics again this year. They'll travel to Lancaster for this all-day event. His Science class will also take a field trip to the Whitaker Center in Harrisburg. That's one of their favorite places to go so it should be a really fun day.

OLIVIA

Olivia is excited that she made the middle school soccer team. This is her first time to play soccer competitively. She's one of the youngest on the team, so they told her not to expect too much playing time. Since Olivia enjoys socializing as much as playing, she's fine with that.
