

# GOOD NEWS

## MOVING TIME

As you know, the Teeter family has now lost both Dr and Mrs Teeter as they went to be with the Lord they loved and served. Their three sons, Tim, Paul, and Jonathan have graciously agreed to let CEF continue to use the Mark Victor Teeter Memorial Park for Good News Camp each summer. Recently, they also agreed to provide the Teeter home for CEF to use.

After much prayer and relying on the wisdom of our committee, it was decided that the Russell family will move into the Teeter house to make use of it as the CEF director's home. You can imagine what a blessing this will be during the months of camp preparation, the 8 weeks of camp, and the clean-up that follows the end of camp. We know this is a gift from God and everyone is happy to see the house be filled with family again after being empty for some time.

Please pray for our family as we are hoping to move before the start of camp on June 16th. This is a lot to undertake in addition to camp preparation, but we feel it is the best decision to go ahead and make the move before things get too busy. Pray also as we will need to sell our home in Chambersburg. We're praying the home can be a blessing to another family as it has been to us for the past five years.

## CORA, CALEB, JACOB

Cora, Caleb, and Jacob are all very excited about serving as summer missionaries this year.

We're so glad they can participate in the wonderful training that CEF offers as we know it will help them throughout their lives. We're also glad that they can work together as a team reaching boys and girls this summer. After their training, they're planning to split their time between teaching clubs and working at various camp locations.

## OLIVIA

Olivia will graduate from 6th grade in just a few weeks. She'll be the last one to leave elementary school and will close a chapter in our lives. Pray for Olivia as she is taking the news of our move a little hard. Even though it's just a few miles away, she feels like she's moving from the only house she really remembers. She's accepted it as God's plan for our family, but is just feeling sad about it.
