

LET *everything*
THAT HAS *breath*
PRAISE THE *Lord*
PSALM 150:6

GOOD NEWS

CORA AND SETH

Cora and Seth's school had to close down again in April due to some COVID cases among their families. Cora, who is working nights and weekends to complete her Master's degree, was glad for the extra time to work on her final two classes. If all goes well, she will complete that degree by the end of this month.

They hope to get back in their classrooms soon.

CALEB

Caleb has had a few more opportunities to edit some doctoral dissertations. He has also taken on the job as caregiver for eight hours each day for his 96 year old great-grandmother.

She is doing well, but needs someone there around the clock. He really enjoys spending time with her.

JACOB

Jacob was able to come home for the long weekend over Easter. While home, he played twice for the praise team, was the Easter bunny for the church egg hunt, and spent a day at a Burmese church teaching children on Good Friday. He loved every minute of it. After spending months sitting and absorbing, it was nice to have an outlet to do some things.

OLIVIA

Olivia's Easter break was shorter, so she was not able to come home. She had fun on campus with some other friends who live too far away to travel home. She also used the time to do some schoolwork. It's hard to believe she's in her last month of school. She will be finished by May 7. She'll come home for a short time before heading to Jacksonville for her internship.

LOOKING AHEAD

As the school year ends, we once again mourn all of the clubs the were not able to meet this year. Hundreds of children who would have come to club each week missed that opportunity. Our volunteers missed the weekly blessing they get from seeing those kids and showing them the love of God.

As we look forward, it is not too soon to begin planning and praying about Fall clubs. Please pray that the schools that were closed to us this year will welcome us back as they return to five day a week classes. Pray that all of the volunteers will return and that we can pick up right where we left off and begin reaching children through our School Good News Clubs once again. Continue to pray that COVID numbers will decline and schools will be open and back to normal in August.
