# CEF® *IMPACT*

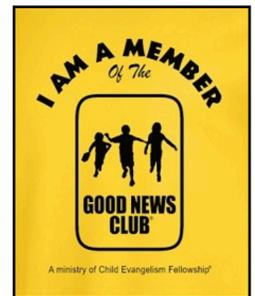

All of the public schools in Franklin and Fulton County are officially meeting in person this Fall. This means that School Good News Clubs can start again as well. We are so thankful for the opportunity to be back in the schools.

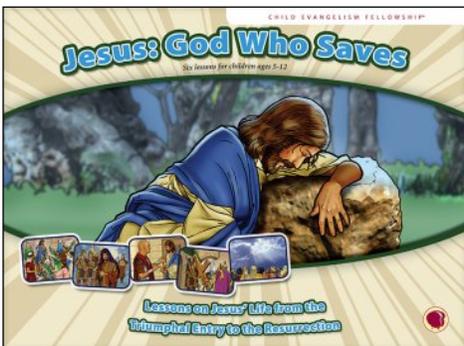

drivers to make it possible for every club to start on time. Dan, Michelle, and Nathan will fill most of those gaps until volunteers are found, but the need is great as they have other responsibilities as well.

With these opportunities come a few challenges. We have some volunteers who are not able to return this year due to health issues or COVID-related concerns. We are thankful for new volunteers who have come on board to help, but some of our clubs are still struggling to get the help they need. We need approximately 12 more teachers, 10 more helpers, and a few bus

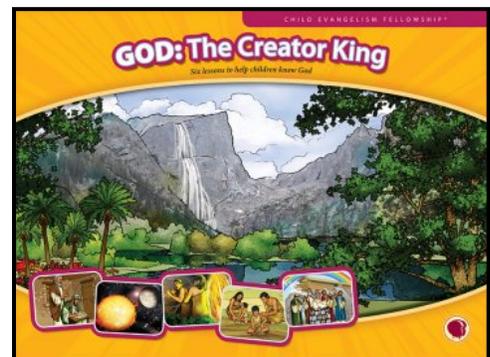

If you or someone you know is able to volunteer one hour a week to be in a club, please let us know and we'll find a club that is a perfect fit for you and your schedule. You will be blessed as you see God's Word impacting those who have no other source for hearing the gospel.

Teacher Training Classes begin this month. They will be on Oct 4 at Chambersburg Bible Church at 9:30 AM and Oct 5 at the CEF office in Waynesboro at 9:30 AM and 7 PM. Also in Fulton County on Oct 4 at 7 PM. These classes are for anyone who works in a children's ministry. Please contact our office if you need more details.

These are two of the lesson series the children will be learning this year. These are some newer materials from CEF and we are excited to be using them in our clubs.

## New Ministry Year

We are excited to be busy again this fall after the very slow pace of clubs over the last school year. We're hoping to have a short time of rest and relaxation before clubs start now that camp has been packed away for the winter.

On the back of your prayer calendar this month is a list of school clubs. Please pray daily for the children, volunteers, bus drivers, and all involved in those clubs. COVID regulations are making things a bit more complicated, but we are making the most of every opportunity we have been given.

## Family News

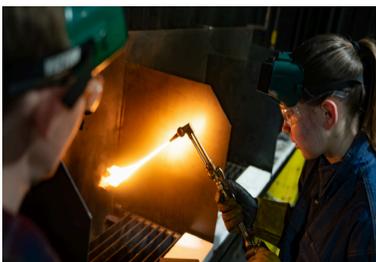

**Cora and Seth** are still teaching virtually this month. It has been a challenge, but they are great at learning and adapting to make it work for themselves and for their students. Over the summer, Cora did some crocheting since she had free time. This is her cat, Pepper, with a blanket she made her.

**Caleb** has just accepted a position at the Caribbean Mountain Academy located in the Dominican Republic. His official title is youth coach, but basically he will be working with teens at this Christian therapeutic school as a mentor and supervisor. He will start this month. You can see more about it at [www.caribbeanmountainacademy.com](http://www.caribbeanmountainacademy.com).

**Jacob** had to do classes online for two weeks to "slow the spread," but things have returned mostly to normal now. We've been able to go down twice so far to visit him and to attend football games. We're glad he is close by.

**Olivia** is enjoying her role as a peer advisor and has taken on a second job as a lab tech. She only works a few hours per week at each job, but she is enjoying helping other students. The picture shows her welding with her boyfriend, Matt, looking on. He is a senior, and is also in the welding program at LeTourneau.
