

THE RUSSELL FAMILY - DECEMBER 2021

Serving with Child Evangelism Fellowship® in Franklin & Fulton Counties, Pennsylvania

Last month, Michelle's grandmother entered into her final reward at the age of 96. She was a long-time volunteer with CEF as camp nurse and a helper in clubs until age 83. Retired individuals are such a blessing to camps and clubs. We're so thankful for those who serve in this time of their lives. The kids love them, too!

Cora and Seth's school has returned to in-person, but is still offering an online version as well. Seth, in the high school, teaches both simultaneously. Cora, in 2nd grade, is teaching eleven students that are continuing online while the others return in person. The government will re-evaluate this in January. It's keeping them on their toes!

Caleb has settled into his new home in the Dominican Republic. He is finding his way around his new home. He has started orientation which has allowed him more contact with the teens in the program. He absolutely loves the tropical weather. The temperature stays between 70-80 degrees nearly all the time.

Jacob just registered for his last semester of college. He is busy working on his capstone project, which is a senior project he must complete in order to graduate. For his project, he is working with a local veterans organization to help develop an app they can use to minister to veterans in the area. The work is rewarding.

Olivia has two months off for Thanksgiving and Christmas. It will be her first time home since May, so we are really glad to have this time with her. She is having a very busy semester, so she is looking forward to some time to just relax and catch up with friends. She's currently looking for another summer internship as well.
