

Good News

We have finished all of our School Good News Clubs for the year. What an amazing opportunity Dan had to teach at Greencastle-Antrim Primary School, Summitview Elementary, and Lurgan Elementary each week as well as the Sam’s program at the YMCA. Michelle enjoyed teaching at Stevens Elementary, Summitview, and subbing at clubs to cover workers who were sick or recovering from surgery. Each club has its own unique flavor. Every one is special in its own way, and we will miss seeing the children each week. Thankfully, many have told us they will be at camp this summer, so we will see them again soon.

The recent warmer weather is giving us “camp fever.” We are excited to begin preparing the property for the children and staff. Many things have already been ordered. We have had a few issues with supplie chains and shortages. This was also an issue last summer, but God supplied every need. Please pray that we can get everything we need in the quantities we require. We are thankful for a God who uses His people to fill needs and reach children with the saving knowledge of Jesus Christ.

Prayer Requests

- ✓ Praise God for opportunities and transitions for our children. Pray for each one as they face many life changes over the next weeks and months.
- ✓ Pray for many productive days at camp this month as we work almost daily to get things ready.
- ✓ Praise God for the opportunities we had this year to teach and train. It is our joy.

Cora and Seth

Cora and Seth plan to arrive stateside in early June. The next two months will be busy with finding a place to live in WA, settling in, moving their belongings from PA to WA, and getting set up in their new schools. Pray for them during this big adjustment.

Caleb

Caleb has signed up to be our chapel leader for camp again this summer. He will also be working to train his replacement as this is most likely the last summer he will be available to serve in this role. We have several qualified people who can take that position.

Jacob

Jacob will officially gradate from Liberty University with a degree in software engineering on May 6. He recently accepted a job at Textron Technologies, in Baltimore County. We’re so glad he will be starting his career close to home.

Olivia

Olivia will begin her internship at BWX Technologies on May 16. She’s excited about this internship as it will give her different opportunities and experiences than the one she had last year Praise God that she has found a safe and close place to rent.
