

# Good News

The Russell Family - Serving with Child Evangelism Fellowship®

Jacob started his new job at Textron in Hunt Valley, MD. So far, he has felt equipped for and pleased with the work he has been doing. He likes his apartment and has made some friends.

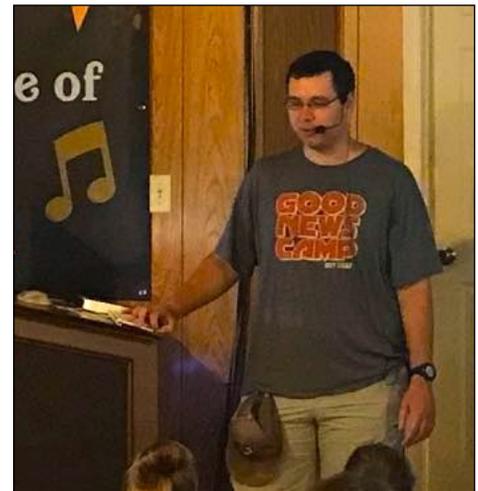

Once again, we had a wonderful summer of ministry. It was strange to have only Caleb working with us this year instead of the whole family. Everyone else was able to visit for a few days here and there. The summer went by so quickly and we now find ourselves working to get ready for Good News Clubs and our upcoming open house. Thank you for praying for health, safety, and fruitful ministry for our family and for the ministry this summer.

Olivia finished her internship in VA and left a few days later to return to LeTourneau University in Texas. She is a lead peer advisor this year and is very excited about that. She loves her school and her friends.

Seth and Cora have settled in wonderfully at their new home in Lynden, Washington. We loved spending a week with them in their quaint town just after camp ended. They will soon start a new adventure as Seth will be teaching 8th grade math at Lynden Christian School. Cora is still looking for a job in the area. She has several leads and is praying for God's perfect timing and direction for the right job. The picture shows our visit to Seattle just before flying home. It is a beautiful city.

Caleb finished another summer of being the chapel leader at camp. Since his work is flexible, he is able to stick around to help us for a few more weeks before he will move to Towson to live with Jacob. He has been helping at both the office and camp. We will really miss him when he moves, but we're glad he will be close. He continues to work as an editor for Liberty University.
