

Welcome  
Spring!

# GOOD NEWS

## CORA AND SETH

Cora and Seth have joined a small group at their church in Bellingham, WA. They are really enjoying this group. Cora got a new guitar for her birthday last month and has been playing it for their small group gatherings. It has been awhile since she played, but she is happy to pick it up again and use her talents in this way.

## CALEB AND JACOB

Caleb is learning a lot about CEF and ministry through his job. Earlier this month, he and Jacob came over for the day to be at a club that needed some extra help. They both had the day off work, so it was a great time for them to come.

They will also be helping Dan with an Easter weekend program at a church in Laurel, MD. They have helped at this for several years and are glad they can do it again. They are really enjoying the Friday night gatherings at their church.

Sometimes they last into the morning hours because the group is having so much fun.

## OLIVIA

Olivia spent her spring break on San Padre Island, TX with a ministry called "Beach Reach." They provided rides to college students on spring break who needed help getting back to their hotels. They used these opportunities to share the gospel with the students. She participated in some very meaningful conversations and had several opportunities to share the gospel. She got to meet and work with Christian college students from many schools. It was a great experience. She's already talking about going back next year.

## THANKFUL

As another season of School Good News Clubs ends, we are so thankful to God for how He provided for these clubs. Many of them had their biggest attendance since COVID. Sometimes we struggled to keep up with the growing numbers, but God always supplied what was needed at just the right time.

Our attention has shifted almost completely to camp now. We will have meetings, work days, and planning sessions to get things ready throughout the next two months. The excitement builds each day as we anticipate another great summer with the children and staff.

Pray that God will provide what is still needed - especially teachers, a lifeguard, bus drivers, and nurses.

Please let us know if you or someone you know can fill any of these needs.
