

# Good News

## A Change is Coming

When our family moved from the Philippines to Pennsylvania in 2007, we had no doubt that it was God's leading. It was the perfect opportunity for us to serve in ministry together. Over the years, our kids served as helpers, junior counselors, teachers, craft leaders, chapel leaders, and junior staff members at camp. They got to serve with CEF's CYIA™ program and teach Bible clubs to children throughout Franklin and Fulton Counties. They also had opportunities to be involved with teaching Good News Clubs™ during their high school years. God provided for our family exactly what we had envisioned when we dedicated each child to Him. Serving together has been the highlight of our lives thus far.

Now that each of our children has moved from the area and started their adult lives, we strongly feel God leading us to move away from the ministry of CEF and allow another young family to step into our places and have the amazing experience we now cherish. Therefore, our last day of ministry with CEF will be December 31, 2023. On January 1, we will begin a new phase of life and ministry. We plan to take a sabbatical for several months before moving to the new ministry that God has for us but has not yet revealed. We are planning to use the time off to visit our children and rest after being busy in ministry for the past 29 years.

**Faithful is he  
that calleth  
you, who also  
will do it.**

1 Thessalonians 5:24 (KJV)

God has already provided a family to continue the ministry, and we can't wait to introduce them to you in next month's letter. These new leaders will ensure that the work of CEF will continue with excellence and in God's plan. They will also bring new ideas from their years of church and missions experience that will be a blessing to this ministry. Thank you for praying for both us and the new family as we work towards a smooth transition over the next six months.

### Updates

- ✓ Cora and Seth were able to visit for a week in June. Cora is taking some additional training online for her job and will spend a week in Vancouver, Canada to attend the in-person part of that class. She is really learning a lot of techniques for helping children who are struggling with reading and math.
- ✓ Caleb has been a tremendous help both at home and camp. We're thankful he was able to work with us this one last summer.
- ✓ Jacob will have completed one year at Textron this month. He still loves his job and life in Towson.
- ✓ Olivia is enjoying her internship. She's learning a lot, and it is stretching her in many ways.
